Volume 69 1976

Table of Contents

No. 1 pp. 1–320 issued on October 1, 1976
No. 2 pp. 321–624 issued on October 15, 1976

1 p-Nitroanilides of 3-Carboxypropionyl-peptides. Their Cleavage by Elastase, Trypsin, and Chymotrypsin
E. Kasafírek, P. Frič, J. Slabý, and F. Mališ

15 Some Properties of Phospholipid Exchange Proteins from Rat Liver
R. H. Lumb, A. D. Kloosterman, K. W. A. Wirtz, and L. L. M. van Deenen

23 Daunorubicin Inhibition of DNA-Dependent RNA Polymerases from Ehrlich Ascites Tumor Cells
V. Barthelemy-Clavey, C. Molinier, G. Aubel-Sadron, and R. Maral

35 Active Transport by Membrane Vesicles from Anaerobically Grown *Escherichia coli* Energized by Electron Transfer to Ferricyanide and Chlorate
J. Boonstra, H. J. Sips, and W. N. Konings

45 Reiteration Frequency of the Histone Genes in the Genome of the Amphibian, *Xenopus laevis*
E. Jacob, G. Malacinski, and M. L. Birnstiel

55 Heterogeneity of Native Ribosomal 60-S Subunits in Ehrlich Ascites Tumor Cells Cultured *in vitro*
W. J. van Venrooij and A. P. M. Janssen

61 Error Structure of Enzyme Kinetic Experiments. Implications for Weighting in Regression Analysis of Experimental Data
P. Askelöf, M. Korsfeldt, and B. Mannervik

69 Structural Features of Encephalomyocarditis Virus RNA from Analysis of Reverse Transcription Products
J. S. Emtage, N. H. Carey, and N. Stebbing

79 Comparison between Strontium and Calcium Uptake by the Fragmented Sarcoplasmic Reticulum
P. Mermier and W. Hasselbach

87 An Improved Procedure for Automated Edman Degradation Used for Determination of the *N*-Terminal Amino Acid Sequence of Human Transcobalamin I and Human Intrinsic Factor
J. Thomsen, D. Bucher, K. Brunfeldt, E. Nexo, and H. Olesen

97 Epoxides Derived from Various Polycyclic Hydrocarbons as Substrates of Homogenous and Microsome-Bound Epoxide Hydratase. A General Assay and Kinetic Properties
P. Bentley, H. Schmassmann, P. Sims, and F. Oesch

105 The Action Pattern of Amylomaltase from *Escherichia coli*
T. N. Palmer, B. E. Ryman, and W. J. Whelan

117 Characterization of Collagen and Its Precursors Synthesized by Rabbit-Articular-Cartilage Cells in Various Culture Systems
K. Deshmukh and W. G. Kline

125 Isolation and Partial Characterization of Elastase from Dog Granulocytes
M. Delshammar and K. Ohlsson

133 Kinetics of Dimerization of the Variable Fragment of the Bence-Jones Protein Au
H. Maeda, J. Engel, and H. J. Schramm

141 Protease I from *Escherichia coli*. Some Physicochemical Properties and Substrate Specificity
M. Pacaud, L. Sibilli, and G. Le Bras

153 Bovine Neurophysins I, II and C: New Methods for Their Purification and for the Production of Specific Antibodies
J. de Mey and F. Vandesande

163 Protein Synthesis in Toluene-Treated *Escherichia coli*. Exclusive Synthesis of Membrane Proteins
S. Halegoua, A. Hirashima, J. Sekizawa, and M. Inouye

169 Snake Venom Toxins. Purification and Properties of Low-Molecular-Weight Polypeptides of *Dendroaspis polylepis polylepis* (Black Mamba) Venom
D. J. Strydom

177 Effects of Lipolytic and Antilipolytic Drugs on Metabolism of Adenosine 3′:5′-Monophosphate in Brown Adipose Tissue of Cold Acclimated Rats
R. Bertin and R. Portet

185 Subcellular Distribution and Response to Gastrointestinal Hormones of Adenylate Cyclase in the Rat Pancreas. Partial Purification of a Stable Plasma Membrane Preparation
M. Svoboda, P. Robberecht, J. Camus, M. Deschodt-Lanckman, and J. Christophe

195 The Binding of Specific Ligands to Adenosine-Triphosphate Phosphoribosyltransferase
T. Dall-Larsen and L. Klungsøyr

203 Salt Inactivation as a Mechanistic Probe of Membrane-Bound Chloroplast of Coupling Factor 1
N. Nelson and R. Broza

209 Identification and Some Properties of a New Fast-Reacting Plasmin Inhibitor in Human Plasma
D. Collen

217 Uridine—Cytidine Kinase from Foetal and Adult Rat Liver. Purification and Study of Some Properties
M. C. Fulchignoni-Lataud, M. Tuilie, and J.-M. Roux

223 Isolation of a Crosslinked Cyanogen-Bromide Peptide from Insoluble Rabbit Collagen. Tissue Differences in Hydroxylation and Glycosylation of the Crosslink
W. Henkel, J. Rauterberg, and T. Stirtz

233 Activities of Protein-Deficient Particles Derived from 50-S Ribosomal Subunits by NH_4Cl/Ethanol Treatment
C. Bernabeu, D. Vazquez, and P. G. Ballesta

243 Ferredoxin from a Red Alga, *Porphyra umbilicalis*
P. W. Andrew, L. J. Rogers, D. Boulter, and B. G. Haslett

249 Nuclear-Magnetic-Relaxation Studies of the Interaction of Inhibitor with the Threonine-Sensitive Aspartokinase of *Escherichia coli*
A. Tilak, K. Wright, S. Damle, and M. Takahashi

257 The Uptake and Metabolism of Uridine by the Slime Mould *Physarum polycephalum*
B. Birch and G. Turnock

265 Substrate Specificity of the Ultraviolet-Endonuclease from *Micrococcus luteus*. Endonucleolytic Cleavage of Depurinated DNA
N. V. Tomilin, E. B. Paveltchuk, and T. V. Mosevitskaya

273 The Transient-State Kinetics of Two-Substrate Enzyme Systems Operating by an Ordered Ternary-Complex Mechanism
G. Pettersson

279 Kinetic Transients in the Reduction of Aldehydes Catalysed by Liver Alcohol Dehydrogenase
J. Kvassman and G. Pettersson

289 Accumulation of Free Ribosomal Proteins S1, L7, and L12 in *Escherichia coli*
S. Ramagopal

299 The Effects of Temperature and Some Inhibitors on the Carnitine Exchange System of Heart Mitochondria
R. R. Ramsay and P. K. Tubbs

305 4a-Alkyldihydroflavin: Coenzyme Synthesis and Modification of Flavodoxin
G. Scola-Nagelschneider, M. Brüstlein, and P. Hemmerich

315 The Immediate Uptake of Potassium Ion by Mitochondria Requiring Gramicidin and 2,2-Dimethylsuccinic Anhydride
H. I. Hadler and J. M. Demetriou

321 Localization of the GTP-Binding Site in the Ribosome · Elongation-Factor-G · GTP Complex
A. S. Girshovich, V. A. Pozdnyakov, and Y. A. Ovchinnikov

329 Differentiation in Avian Keratinocytes. The Properties of the Proteins of the Chick Down Feather
I. D. Walker and G. E. Rogers

341 The Structural Basis for the Heterogeneity of Chick Down Feather Kreatin. The Partial Amino Acid Sequence of Down Feather Keratin
I. D. Walker and G. E. Rogers

351 Characterization of Developmentally Regulated Forms of Elongation Factor 1 in *Artemia salina*
1. Purification and Structural Properties of the Enzymes
L. I. Slobin and W. Möller

367 Characterization of Developmentally Regulated Forms of Elongation Factor 1 in *Artemia salina*
2. Functional Properties of the Enzymes
L. I. Slobin and W. Möller

377 Role of DNA · RNA Hybrids in Eukaryotes. Purification of Two Ribonucleases H from Yeast Cells
F. Wyers, A. Sentenac, and P. Fromageot

385 Role of DNA · RNA Hybrids in Eukaryotes. Characterization of Yeast Ribonucleases H_1 and H_2
F. Wyers, J. Huet, A. Sentenac, and P. Fromageot

397 Primary Structure of α-Factor Peptides from *Saccharomyces cerevisiae*
D. Stötzler, H.-H. Kiltz, and W. Duntze

401 Distribution of Protein Assembly Sites along the 23-S Ribosomal RNA of *Escherichia coli*
U. Chen-Schmeisser and R. Garrett

411 Essential Role of Monovalent Cations in the Firm Binding of Pyridoxal 5′-Phosphate to Tryptophanase and β-Tyrosinase
T. Toraya, T. Nihira, and S. Fukui

421 Antibody to Rheumatoid Synovial Collagenase. Its Characterization, Specificity and Immunological Cross-Reactivity
D. E. Woolley, M. J. Crossley, and J. M. Evanson

429 A Kinetic Study of the Energy-Linked Influx of Ca^{2+} into Heart Mitochondria
M. Crompton, E. Sigel, M. Salzmann, and E. Carafoli

435 Structure Determination of a Modified Nucleoside Isolated from *Escherichia coli* Transfer Ribonucleic Acid. *N*-[*N*-[(9-β-D-Ribofuranosylpurin-6-yl)carbamoyl]threonyl]2-amido-2-hydroxymethylpropane-1,3-diol
H. Kasai, K. Murao, S. Nishimura, J. G. Liehr, P. F. Crain, and J. A. McCloskey

445 Basic Charges on Mammalian Ribonuclease Molecules and the Ability to Attack Double-Stranded RNA
M. Libonati, A. Furia, and J. J. Beintema

453 The Sodium-Induced Efflux of Calcium from Heart Mitochondria. A Possible Mechanism for the Regulation of Mitochondrial Calcium
M. Crompton, M. Capano, and E. Carafoli

463 Lysosomal Cathepsin B1: Partial Characterization in Rat Preputial Gland and Recompartmentation in Response to Estradiol-17β
C. M. Szego, B. J. Seeler, and R. E. Smith

475 The Neurohypophysial Hormone-Binding Proteins: Complete Amino-Acid Sequence of Ovine and Bovine MSEL-Neurophysins
M. T. Chauvet, J. Chauvet, and R. Acher

487 The Function of Menaquinone, Covalently Bound FAD and Iron-Sulfur Protein in the Electron Transport from Formate to Fumarate of *Vibrio succinogenes*
A. Kröger and A. Innerhofer

497 The Function of the *b* Cytochromes in the Electron Transport from Formate to Fumarate of *Vibrio succinogenes*
A. Kröger and A. Innerhofer

507 Coenzyme-Dependent Conformational Properties of Rat Liver Ornithine Aminotransferase
Y. Sanada, T. Shiotani, E. Okuno, and N. Katunuma

517 The Amino-Acid Sequence of a Fragment of Human Serum Albumin Containing Two of Its Antigenic Determinants
J. E. Walker

527 Purification of DNA-Dependent RNA Polymerase C from Zajdela Hepatoma Cells
M. Caizergues-Ferrer, C. Rouch, and J.-P. Zalta

535 Inhibition of Poxvirus-Specific Functions Induced in Chick-Embryo Fibroblasts by Treatment with Homologous Interferon
J. Osterhoff, M. Jäger, C. Jungwirth, and G. Bodo

545 The Dimer of the *Escherichia coli* Galactose-Binding Protein
I. Rasched, H. Shuman, and W. Boos

551 Interferon-Mediated Inhibition of Cell-Free-Protein Synthesis in Response to Double-Stranded RNA
I. M. Kerr, R. E. Brown, M. J. Clemens, and C. S. Gilbert

563 Evidence for the Existence of Two Interconvertible Forms of the Phosphofructokinase Dimer from *Escherichia coli* K-12
K. N. Ewings and H. W. Doelle

571 L-Glutamate Dehydrogenase. Enhancement of the Reactivity of the *p*-Chloromercuribenzoate-Binding Site in Presence of the Competitive Label Methyl Mercuric Chloride
M.-P. Cosson and D. Pantaloni

577 The Mechanism of C-5(6) Double Bond Introduction in the Biosynthesis of Cholesterol by Rat Liver Microsomes. Consideration of a Mechanism Similar to the Oxidation of *o*-Diphenols
V. V. R. Reddy and E. Caspi

583 Phenyl β-D-Galactopyranoside as an Acceptor Substrate for the Blood-Group H Gene-Associated Guanosine Diphosphate L-Fucose: β-D-Galactosyl α-2-L-Fucosyltransferase
M. A. Chester, A. D. Yates, and W. M. Watkins

593 Calf-Spleen Nicotinamide-Adenine Dinucleotide Glycohydrolase: Kinetic Mechanism
F. Schuber, P. Travo, and M. Pascal

603 Heterogeneity of Erythrocyte Catalase. Dissociation, Recombination and Hybridization of Human Erythrocyte Catalases
B. Scherz, E. J. Kuchinskas, S. R. Wyss, and H. Aebi

615 Antibodies to Poly(I) · poly(C). Purification and Interaction with Polynucleotides
M. Guigues and M. Leng
